

RAY WU MEMORIAL FUND

Our Purpose

The **Ray Wu Memorial Fund (RWMF)** is a 501(c)(3) non-profit organization established to carry on Dr. Ray Wu's legacy of supporting young scientists in life sciences, with the following objectives:

(a) to promote, augment and improve life science research and education activities by Chinese scientists and trainees;

(b) to provide financial resources for life science research and education activities by Chinese scientists and trainees;

(c) to recognize contributions by Chinese scientists and trainees in life science research and education;

(d) otherwise to engage in any lawful act and activity consistent with the foregoing for which funds may be formed according to the laws of the State of Alabama and the United States of America.

Ray Wu Prize

The **Ray Wu Prize** recognizes excellence in life science research by a graduate student for innovation, independent thinking, and dedication. Ray Wu Prize is awarded each year to graduate students who are pursuing a degree of Doctor of Philosophy (Ph. D.) in an academic institution located in **Asia areas**.

The prize consists of USD \$5000, a medal, a certificate, and a citation by the Ray Wu Memorial Fund (RWMF). T

RWMF will serve as a liaison for the Ray Wu Prize winners who wish to seek consultation from established investigators as they develop their scientific careers. Ten or more awards will be made each year.

Dr. Ray Wu

Dr. Ray Wu (1928-2008) was a true scholar in the world and a strong advocate for life sciences throughout Asia. In the 1970s, he developed the first method for DNA sequencing and pioneered recombinant DNA technology. He devoted later part of his scientific career to genetic engineering of rice, which feeds most of the world population.

Dr. Ray Wu played numerous advisory roles to Chinese and Taiwan governments, as well as academic institutions. In particular, he initiated an exchange program, the CUSBEA (China-United States Biology and Biochemistry Examinations and Applications) Program, in the 1980s which brought over 400 students from China to pursue Ph.D. degrees in the US, thus leading the way for Chinese students to study life sciences abroad and return to work in China.

2010 Ray Wu Prize Winners

Dr. Wu's Favorite Quotations:

Today's impossibilities are tomorrow's miracles.

I believe in myself that with God's help and guidance I will succeed.

Keep working toward my goals, persist, persist.

Enjoy life now while trying to reach my destination.

Every morning, write down the top priority work to be done, and do it now or very soon.

RAY WU MEMORIAL FUND

Ray Wu Prize Application and Selection Process

Criteria: The Ray Wu Prize recognizes excellence in life science research by a graduate student for innovation, independent thinking, and dedication.

Qualifications: A candidate must be a graduate student who is pursuing a degree of Doctor of Philosophy (PhD) in an institution located in mainland China, Hong Kong, Taiwan, or Singapore. The candidate must have advanced to candidacy in the PhD program, but not within the final year of PhD study by the deadline of application.

Nomination: A candidate may be nominated by a faculty member of the institution from which the candidate plans to receive the PhD. The faculty member shall be a PhD mentor and is actively conducting life science research.

Selection: The Ray Wu Prize recipients are selected from qualified candidates by the Ray Wu Prize Committee.

Chair:

Xiaodong Wang (王晓东)

Director and Investigator, National Institute of Biological Sciences, Beijing, China

Members:

Xinnian Dong (董欣年)

Arts & Sciences Endowed Professor of Biology, Duke University

Xin-Yuan Fu (傅新元)

Professor, National University of Singapore

Jun-Lin Guan (管俊林)

Professor, University of Michigan

Nancy Y. Ip (叶玉如)

Head & Chair Professor, Hong Kong University of Science and Technology

Liqun Luo (骆利群)

HHMI Investigator, and Professor, Stanford University

Ming Luo (罗明)

Professor, University of Alabama at Birmingham

Hong Ma (马红)

Dean and Professor, School of Life Sciences, Fudan University

Yi Rao (饶毅)

Dean and Professor, School of Life Sciences, Peking University

Lishan Su (苏立山)

Professor, University of North Carolina

Xiao-Hong Sun (孙晓红)

Eli Lilly Chair and member, Oklahoma Medical Research Foundation

Yue Xiong (熊跃)

William R. Kenan, Jr. Professor, University of North Carolina

Tian Xu (许田)

HHMI Investigator, and Professor, Yale University School of Medicine

Su-May Yu (余淑美)

Distinguished Research Fellow, Institute of Molecular Biology, Academia Sinica

Board of Directors 2010 -

Xiao-Hong Sun, Ph.D.

Hong Wu, M.D., Ph.D.

Ming Luo, Ph.D.

Charlene Liao, Ph.D.

Guo-Liang Yu, Ph.D.

Albert Wu, M.D.
